

(Clothing Bank of Delaware/Friendship House) - Provide free clothing to the community. Offer employment opportunities for women. Friendship House works with people who are experiencing homelessness, houselessness, or both. Homelessness and houselessness are defined differently. Homelessness is the loss of community and houselessness is the loss of one's physical residence. When someone loses their community and is experiencing homelessness, houselessness can be quick to follow. Someone can lose their residency suddenly, and then they may experience homelessness. Therefore, FH strives to ensure every person is ultimately connected to a loving supportive community in order to break the cycle of homelessness and houselessness.
