

We will be collecting for free turkeys in the coming months! The turkeys are used by our Youth Group for Thanksgiving and Christmas baskets for the needy. The process has changed this year, you will have to use an app. There are brochures available at the customer service desk in the market. You can sign up on your phone or on your computer. On your computer go to: www.greatvalu.com and create an account. The tracking of your purchases will be linked to your phone number that you use when creating your account. Once you have an account, when you are at the store you will enter your phone number on the terminal at checkout. You can also create an account on your phone by opening the app. Zingo's will be starting the feathers program on October 20th and it runs through Nov. 28th. If you are able, please assist the church with either turkeys or gift cards, it will be greatly appreciated. This new system is probably going to limit what we collect this year as many of our feathers in the past were brought to the church by community members and other churches that did not take part in this program.
